

## **Leadership Reaction Course. FAC: 1799**

CATCODE: 179922

OPR: AF/A3S

OCR: NA

Updated 10 Apr 2023

1.1. **Description.** A leadership reaction course (LRC) is designed for developing leadership skills/confidence and teamwork through a series of problem-solving obstacles. Obstacles are designed to test Airmen mentally and physically, stretching them beyond their comfort zones. The facility may consist of 10-20 structured “leadership challenges” that encourage Airmen to think, react, and work as a team. The LRC complex is typically constructed from wood, metal, concrete and concrete masonry units on a grass, mulch, earth, gravel, or concrete surface. (Also, see **179921 Confidence Course** and **179923 Obstacle Course**).

1.2. A defined facility standard is not currently available for this CATCode. By default, all requirements are user justified until a standard is established or adopted.
