

Propulsion Engine Testing, Fuel Systems. FAC: 3901

CATCODE: 390611

OPR: AFRL

OCR: NA

1.1. **Description.** Special purpose facility where conditioning and aging of propellants through temperature ranges of -65 to +165 degrees F is accomplished. These facilities are fully monitored continuously around the clock. Anomalies are automatically reported.

1.2. A defined facility standard is not currently available for this CATCODE. By default, all requirements are user justified until a standard is established or adopted.
