SpecsIntact Lite

The SpecsIntact Team is proud to announce SpecsIntact Lite, the replacement for the ThinApp version.

SpecsIntact Lite does not require an installation! It is designed specifically for users who have restricted permissions that prevent them from installing or updating the regular version of SpecsIntact, allowing you take enjoy the newest features. When setting up SpecsIntact the software will be extracted to the users Documents folder or directly on the local hard drive. To learn more about SpecsIntact Lite, refer to the Installation Guide.

UFGS Master

With the 2021 Frist Quarter UFGS Master release, the Change information has been appended to the Section Date (DTE) within specifications that have this information. By incorporating

the change information in the Date tag SpecsIntact can now display the Section Date and Change information in the SpecsIntact Explorer as well as include this information on the Project Table of Contents.

User Tools

SpecsIntact offers a wide variety of tools to aid users who are just learning SpecsIntact or users who are already familiar but need a refresher. These tools will teach you the concepts involved to install the software through completing the projects by utilizing the features provided in the SI System. The Learning Guide Series, Knowledge Base and On-line Help can be found on the SpecsIntact Website's Help Center page. We also offer a vast array of self-directed video instruction to teach the successful use of SpecsIntact. The videos can be found on the eLearning Modules page.

Documentation Updates

We are proud to announce the newly redesigned Knowledge Base, that is now available on the SpecsIntact Website's Help Center page. Here you will find the Release Notes, Frequently Asked Questions, and Technical Notes.

The Installation Guide has been updated to incorporate all the amazing features that are now available in SpecsIntact v5.2.

In the coming months, the new eLearning Modules will be released. The updates are specifically targeted for the redesign of SpecsIntact 5.
